## Sick Child

At South Hiendley Primary School we are committed to safeguarding and promoting the welfare of children and we expect everyone connected with this school to share this commitment.

We have a duty to ensure the health and well being of all children in order for them to be successful learners in a learning environment that is clean, healthy and safe for everyone. Therefore, it is our responsibility to deal with all children who become sick at school in a kind and caring manner.

We believe that if a child is displaying signs of illness then a parent/carer has a duty not to send their child to school. Likewise school staff have a duty to assess the condition of any child who is thought to be unwell and to contact the parent/carer requesting the child should be taken home.

We are aware that all children are subject to coughs and colds at sometime and these should not prevent them from attending school. But we do ask parents/carers not to send their children to school if they are showing signs of vomiting, diarrhoea, any type of rash, flu, chicken-pox, mumps, measles or high temperature.

We recognise the importance of working closely with parents/carers and we believe we have good lines of communication in place. But in order to ensure the health and well being of all children everyone must be aware of their role and responsibilities when a child is displaying signs of illness.

We believe it is only correct for a child suffering from an infectious or contagious disease to be excluded from school until they are fully recovered. We have a duty of care for all pupils and school staff and, therefore, we request parents to consult with their GP before their child returns to school and if need be we will seek advice from the Local Health Authority.

We wish to work closely with the pupils, including the School Council and to hear their views and opinions as we acknowledge and support Article 12 of the United Nations Convention on the Rights of the Child that children should be encouraged to form and to express their views.
